

# CORINTHIAN USER GUIDE

Corinthian is a beautifully laid out church website design that is clean and crisp. And its diverse content layout serves both first-time visitors and members.

Corinthian features the logo, navigation, primary image, and tagline all above the fold on most laptop computers. Scrolling down the website, you will see a featured sermon, featured event, multiple quick link graphics, and a section where you can display your latest blog posts or articles. If you are looking to display multiple types of content in a clean design, then the Corinthian website design is for you.

This article will describe the specifics of the Corinthian homepage. The main difference between each of our designs is the homepage content and how it's structured. With the exception of the homepage, all other pages (subpage layout, sermons page, calendar, and blog) across all of our current designs have the same functionality.

## HOMEPAGE CONFIGURATIONS & DEMOS

Corinthian's homepage is very flexible, allowing for dozens of potential homepage combinations based on what you choose to display.

See [homepage examples](#) and play with the [live demo](#).

## IMAGE SIZES

### Homepage

- Hero Image(s): 2858 x 1012 pixels (*see section 5 below*)
- Quicklink Images: 558 x 420 pixels (*see section 11 below*)
- Featured Blogpost Image: 310 x 200 pixels (*see section 10 below*)
- Featured Event Image: 310 x 200 pixels (*see section 8 below*)
- Sermon Series Image: 1000 x 672 pixels (*see section 7 below*)

### Other Pages

- Subpage Header Image: 3600 x 420 pixels (*example*)
- Featured Event Image: 310 x 200 pixels

# EDITING THE HOMEPAGE

We will install your site running the full, standard homepage. It displays a lot of content, so we've broken it down into sections in this user guide to make it a bit easier to explain.

## Header Section

### 1) Header Logo

Go to: Publish > Files

- Create a transparent PNG of your logo and name it logo.png.
- Go to Publish > Files, and upload your logo file.
- Your logo will now appear in the header. If any spacing adjustments are needed, please open an email case by going to *Help Center > Create a New Case* from within the CMS, and we will assist. *Note: you may need to clear your cache to see the new logo appear on your site.*

### 2) Primary Navigation

Go to: Publish > Navigation

The navigation allows for about 6 top level links to pages and an unlimited number of 2nd and 3rd level links. When we install the site there is a "Home" link to the homepage for usability reasons; however, you can remove this link to create create room for another link as needed. *Note: It will be easier to organize your navigation by first creating your pages at Publish > Pages.*

### 3) Service Times

Go to: Publish > Widgets > Service Times

If your ministry doesn't use service times, feel free to use this section to say whatever you need. To edit the text, go to Publish > Widgets > Service Times. Please be very brief with the text that you add (5-10 words max).

### 4) Header Social Links

Go to: Publish > Social Links

This section allows you to display multiple social media icons in the header and footer. From here you can edit, add, and arrange different social media links. *Note: the search icon is a standard icon in the header and cannot be removed.*

### 5) Homepage Image(s)

Go to: Publish > Rotator

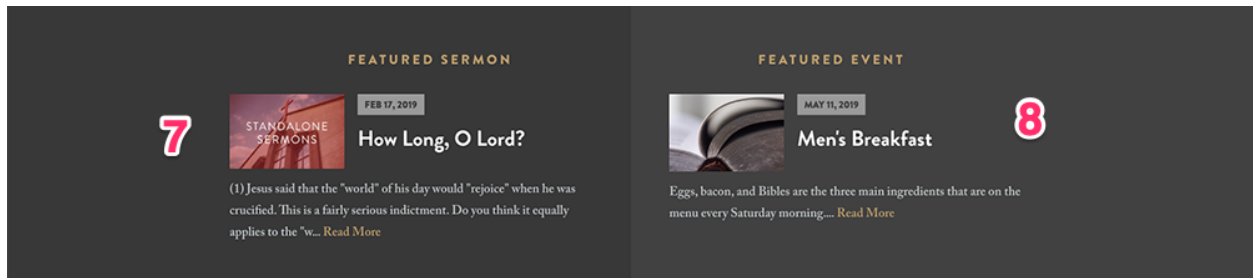

Your rotator images will need to be sized to 2858 pixels by 1012 pixels. Then, add them at Publish > Rotator. You can manage the rotator settings on the "rotator settings" tab.

### 6) Text

Go to: Publish > Widgets > Call to Action

This text will display below the rotator.

## Sermon & Event Section

### 7) Featured Sermon

Go to: Publish > Sermons > Your Chosen Sermon

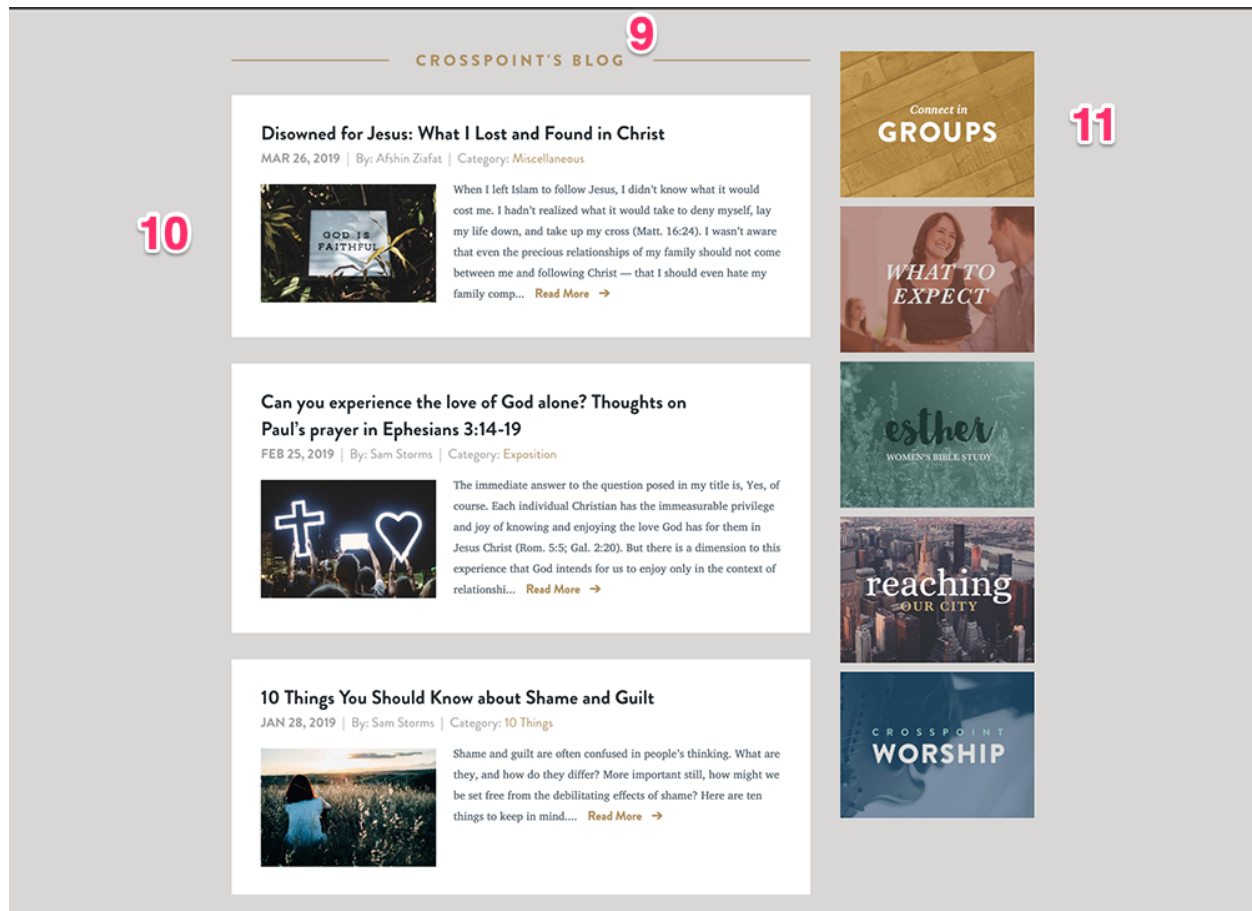

This section will display the last sermon that is published as *featured*. If the sermon is assigned to a series, the series graphic will appear to the left of the date (sermon series images should be sized to 1000 pixels by 672 pixels). The sermon's title, associated series graphic, and date will appear automatically.

### 8) Featured Event

Go to: Publish > Events > Your Chosen Event

This section will display the next event that is published as *featured*, or your most recently dated event. You can control the types of events (featured or regular) that appear in this list by going to Publish > Events > Settings. You'll want to make sure this event has a 310 pixels by 200 pixels image set as the "featured image."

## Posts & Quicklinks Section

### 9) Title

Go to: Publish > Widgets > Post Widget Title

Here you can change the title above the blog posts to say whatever you like.

### 10) Featured Blog Posts

Go to: Publish > Posts

This section will display the 3 most recent blog posts marked as “featured”. The blog must be set to “Primary” to display on homepage. To display text below the blog post title on the homepage, be sure to add a few lines of text into the “Summary” field on the Content tab in all of your blog posts. To display a thumbnail image below each of the blog posts titles and to the left of the summary text, make sure you add a “Featured Image” to all blog posts.

## **11) Quicklinks**

Go to: Publish > Quicklinks

The quicklink images will display to the right of the blog posts. Make sure the images are 558 pixels by 420 pixels.

## Footer Section

### 12) Footer Logo

Go to: Publish > Files

- Create a transparent PNG of your logo and name it logo-footer.png.
- Go to Publish > Files, and upload your logo file.
- Your logo will now appear in the footer. If any spacing adjustments are needed, please open an email case by going to *Help Center > Create a New Case* from within the CMS, and we will assist.  
*Note: you may need to clear your cache to see the new logo appear on your site.*

### 13) Address

Go to: Publish > Widgets > Address

The text you place in this section will appear above the copyright and “powered by” lines.

### 14) Footer Social Links

Go to: Publish > Social Links

This section allows you to display multiple social media icons in the header and footer. From here you can edit, add, and arrange different social media links.

## QUESTIONS?

Please open an email case by going to our [Help Center](#). Thank you!
